HAWTHORNE HARPER
CONSULTING

COMPANY OVERVIEW

Hawthorne Harper's financial consultants leverage decades of in-depth industry expertise and a vast, extended network to match our clients with the right investment or finance opportunity. This enables our clients to make informed decisions efficiently and effectively to solve their toughest, most critical business and investment issues.

Hawthorne Harper was founded in London in 2013 by three partners. This partnership amalgamated the experience and expertise of a property investments professional, a financial broker of 10 years, and a financial services and property marketing expert.

Our team of experts, based in Canary Wharf, have the necessary skills and experience to provide a comprehensive consultation and offer you products suited to your risk and investment requirements.

Hawthorne Harper's success to date is testament to how successfully we integrate with our clients. Careful planning and understanding of our clients' wants and needs mean that they face no issues with inefficiency or poorly-matched opportunities.

We support professional investors, institutions and property developers from across the globe. Whilst our clients are diverse, from a variety of different countries and cultures, they all have one common goal: greater returns on their investments or financing.
